

BEATRICE SARTORI

Visual Artist & Author

*Through my creations, it is
important to me to bring dreams,
escape and serenity.*

BIOGRAPHY

Beatrice Sartori is a contemporary paper artist of Spanish, Italian, and Swiss origin, based in Switzerland.

A self-taught artist, she has passionately developed a distinctive practice of paper cutting and collage, where patience, precision, and imagination come together to create a poetic visual universe.

Her work has been exhibited in Switzerland and internationally, received several distinctions, and has been featured in art books and magazines.

In 2025, she represented Switzerland as Artist Ambassador at the prestigious exhibition Art Connects Women, held under the patronage of UNESCO.

Alongside her visual practice, Sartori is also an author of children's books and poetry.

ARTIST STATEMENT

My inspiration arises spontaneously from the elements around me, particularly from the shapes of paper scraps left behind by my cutting process.

Each artwork begins with a drawing, followed by the meticulous hand-cutting of every detail with scissors. Once the fragments are ready, I carefully assemble and layer them – sometimes up to eight layers – to create depth and relief.

My tools are simple: a pencil, scissors, tweezers, glue, and papers of varied textures and rich colors.

Exploring new graphic forms lies at the heart of my creative process: I compose shapes and thoughtfully select colors to express atmosphere and emotion. My work is characterized by a meticulous, graphic, colorful, and contemporary style.

I explore themes close to my heart: joy, peace, respect, and the essential bond between humanity and nature.

Committed to sustainability, I primarily use 100% recycled papers, aligning my artistic practice with respect for and preservation of the living world.

Paper-cut Collages

SELECTED WORKS

ENSEMBLE

Paper-cut collage | 40x50 cm | 2026

A rhinoceros moves forward,
two birds keep watch.

In this quiet bond,
what matters is simple:
to exist together,
in a harmony that makes us stronger.

IMMENSITÉ

Paper-cut collage | 40x50 cm | 2026

Between sky and water,
the moment becomes silence.

The journey seeks no shore,
only the vastness.

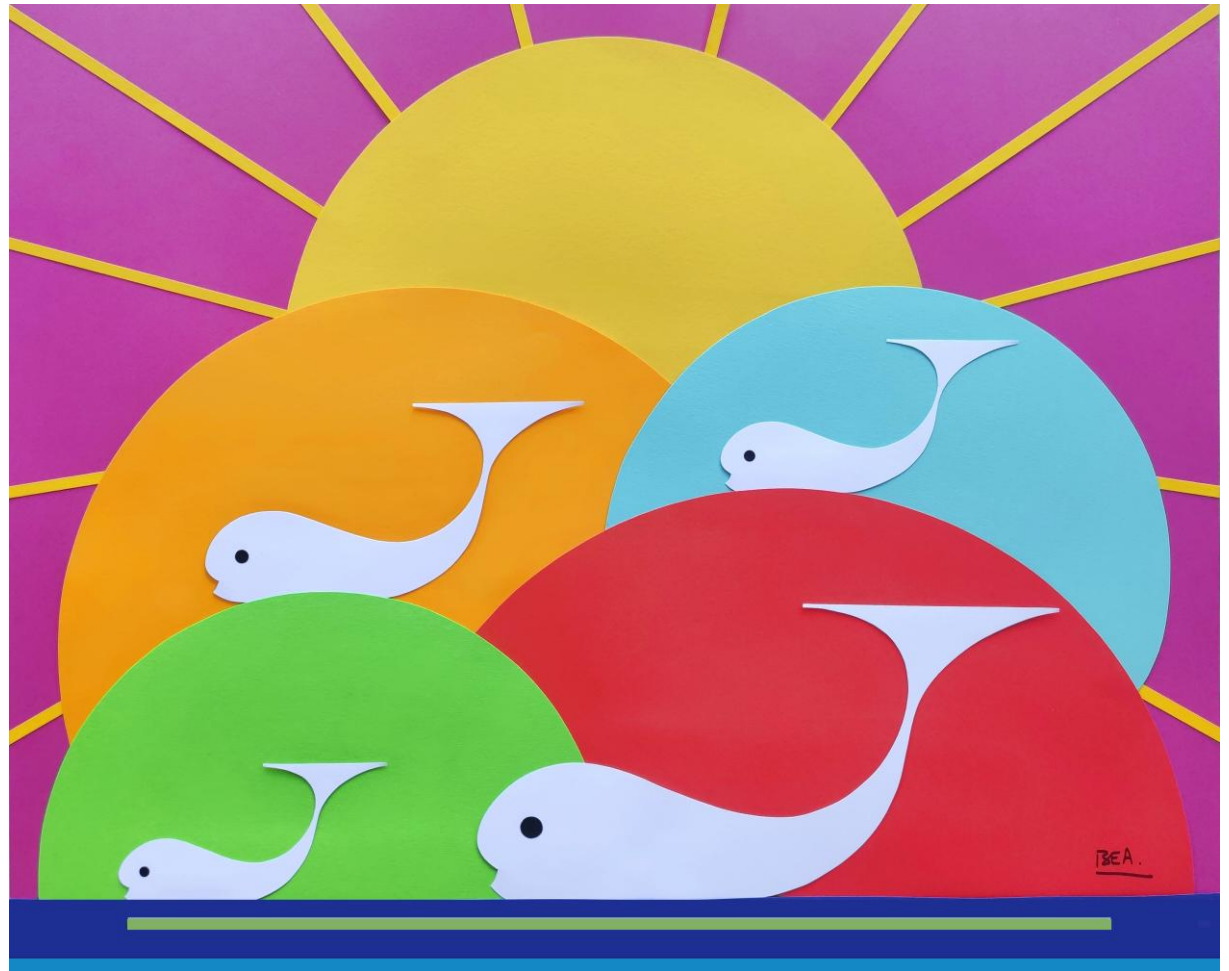

TANT QUE VOGUENT LES BALEINES

Paper-cut collage | 40x50 cm | 2026

Whales glide from sphere to sphere,
carried by calm.

Where gravity fades,
the horizon becomes infinite.

NATURE

Paper-cut collage | 50x50 cm | 2025

Eyes closed,
she releases the living world.

Flowers and butterflies take flight,
essential balance,
the blossoming of life.

Everything spreads,
everything responds.
Nature takes root,
and life is passed on.

VIVRE EN HARMONIE

Paper-cut collage | 50x50 cm | 2024

Two birds face one another,
two colors, two sensibilities.

And, between them,
flowers become a dialogue.

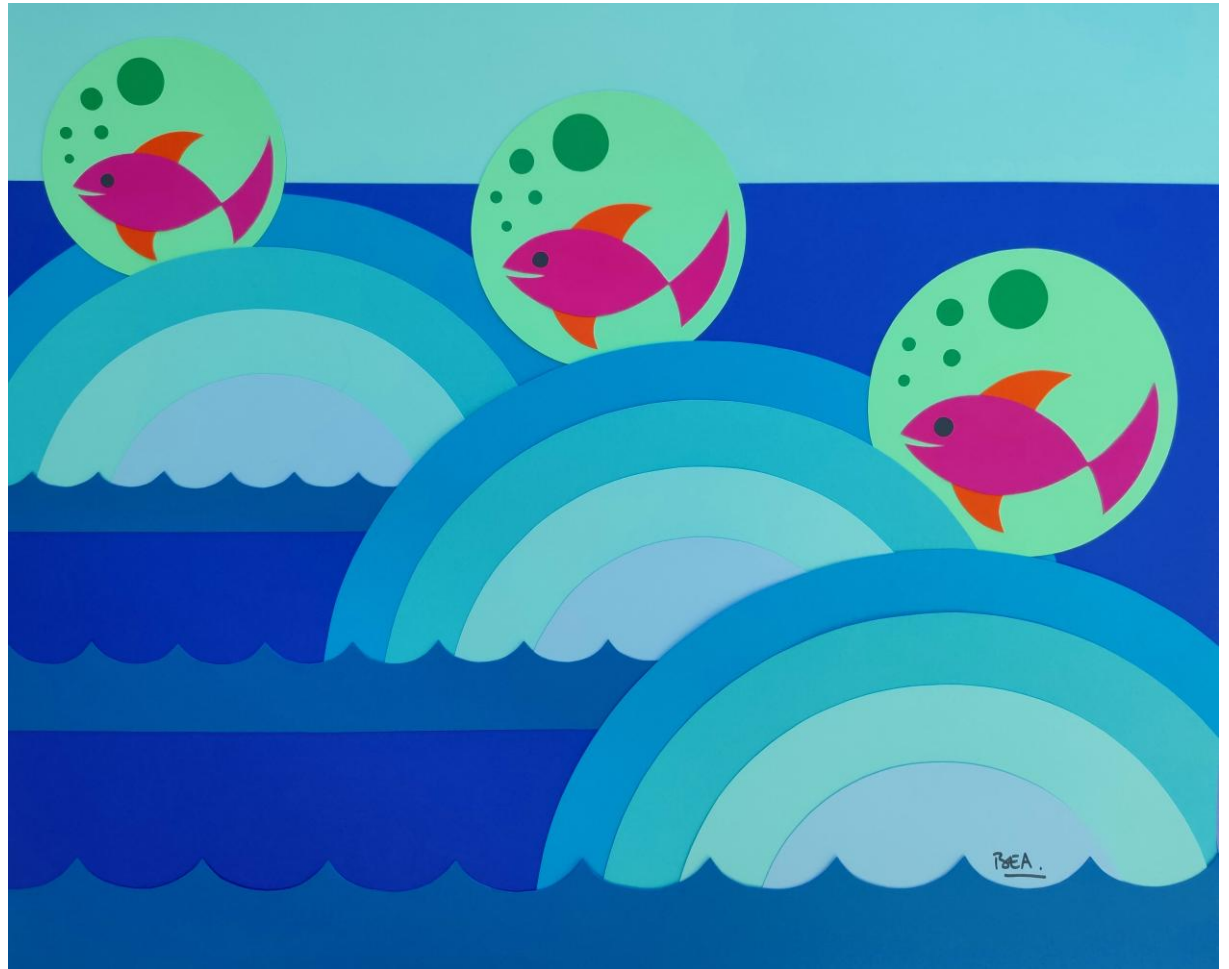

AU RYTHME DE L'EAU

Paper-cut collage | 40x50 cm | 2025

In its eternal cycle,
water nourishes, connects, and purifies.

It carries a gentle strength
and the breath of life.

FLORAISSONS DE SOURIRES

Paper-cut collage | 50x40 cm | 2025

A landscape where flowers smile.

Two butterflies rise
in the lightness of the day.

Joy blossoms
and brightens the spirit.

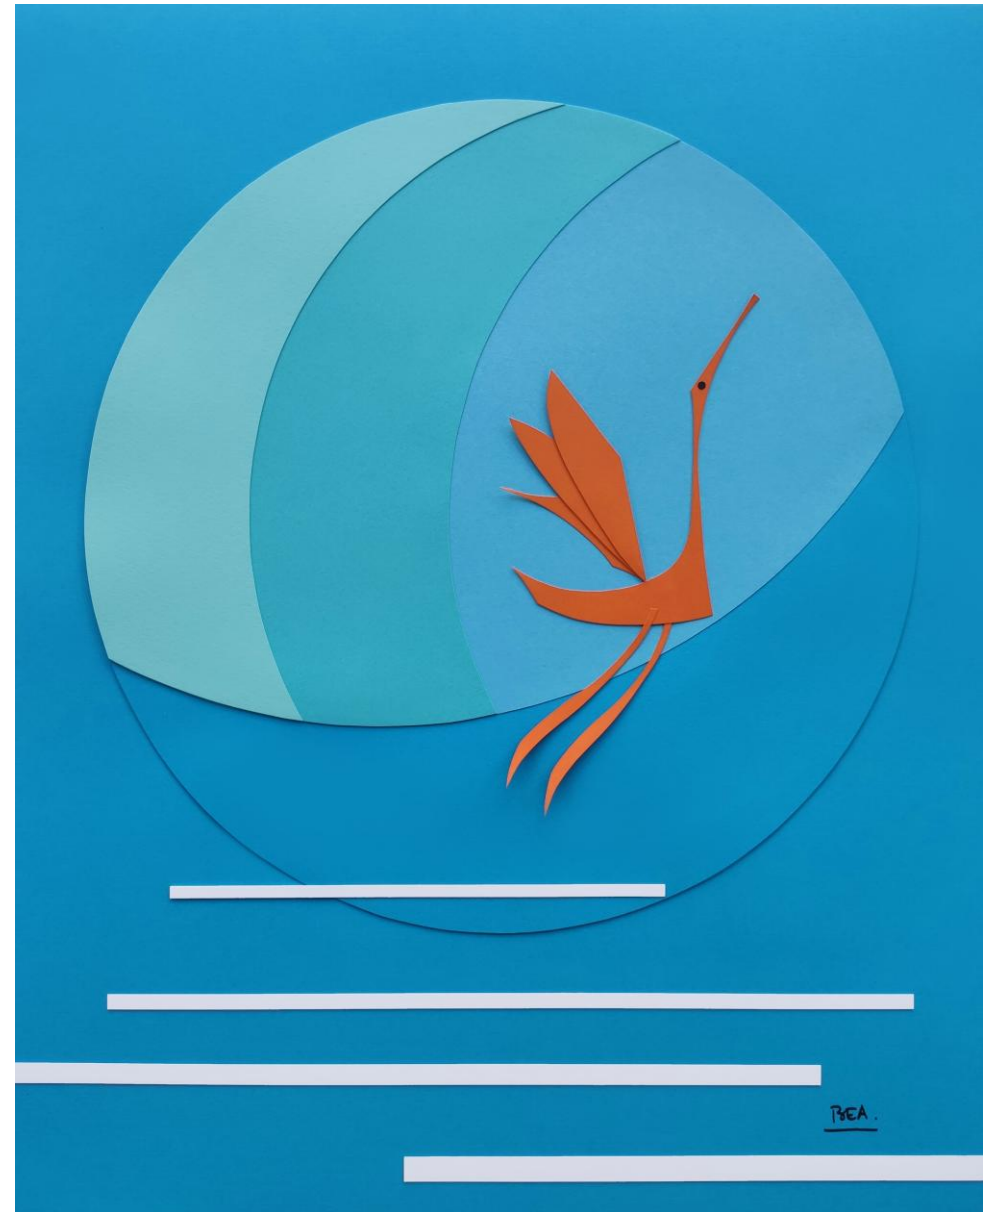

DANS L'AZUR

Paper-cut collage | 50x40 cm | 2026

A blue celestial body dissolves into the transparency of daylight.

An orange spark crosses the boundaries of perception.

In the azure, the visible meets the invisible.

HORIZON

Paper-cut collage | 50x40 cm | 2024

Light stretches across the water.

A whale emerges
among the colors.

Between sky and sea,
the horizon opens.

CONTACT

Paper-cut collage | 50x40 cm | 2026

Four faces.

Four directions.

One shared impulse toward one another.

The point of view changes,
but attention remains.

ÉVEIL

Paper-cut collage | 50x40 cm | 2025

Birds rise from the rainbow
and soar toward infinity.

Each color carries its own energy.

From flight, change is born.

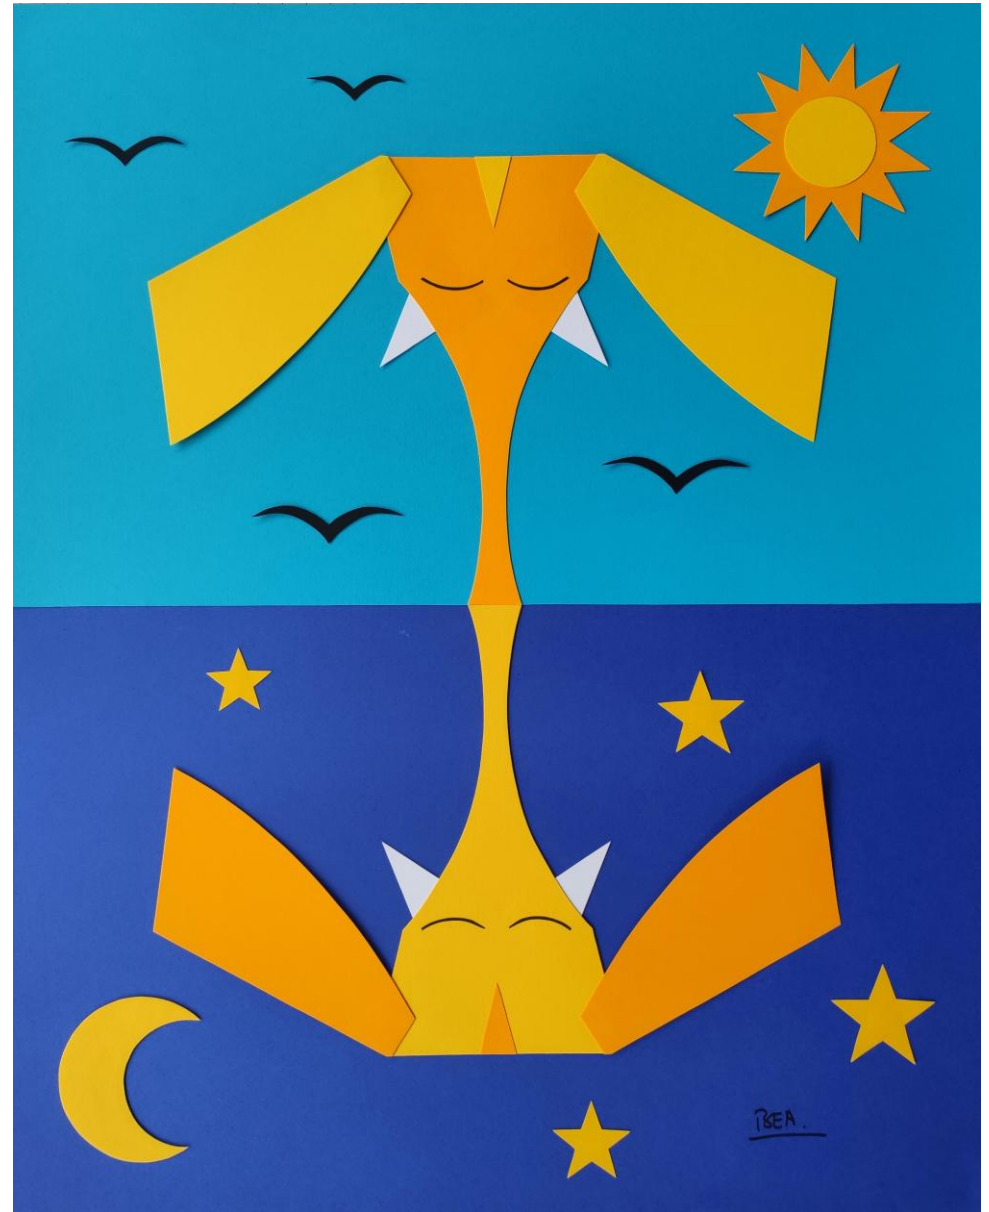

INTROSPECTION

Paper-cut collage | 50x40 cm | 2025

The elephant is reflected in the water.

Between light and depth,
the outer world becomes an inner mirror.

A sensitive intimacy,
where everything comes together.

BABILLAGES COLORÉS

Paper-cut collage | 50x40 cm | 2024

Birds face one another
on slender branches.

Each with its own color,
each with its own voice.

In this lighthearted conversation,
diversity becomes melody.

UNE BELLE JOURNÉE

Paper-cut collage | 50x40 cm | 2024

A man strolls with his dog.

The birds move forward.
Leaves scatter the path.

A moment of simplicity
and gentleness.

PABLO ET L'OISEAU

Paper-cut collage | 50x40 cm | 2025

Kneeling in the grass, Pablo, a wonderstruck robot, watches a little bird perched on his metallic hand.

Their eyes meet in gentle curiosity.

In the star-filled sky, the moon keeps watch:
a suspended moment between technology and
nature,
where a gaze becomes emotion.

PERCE-NEIGE, LA BALLERINE DES GLACES

Paper-cut collage | 50x40 cm | 2025

In the sparkling embrace of a frozen night, a snowdrop flower comes to life.

Its petals unfold into an immaculate mane; its face radiates serenity.

Its upper leaves, arms outstretched, reach toward the sky.

Its lower leaves, fitted with white skates, glide across the frosted mirror.

Perce-Neige glides, twirls, and her heart overflows with joy.

She knows that, even fleeting, her enchanted ballet celebrates the magic of life and the poetry of winter.

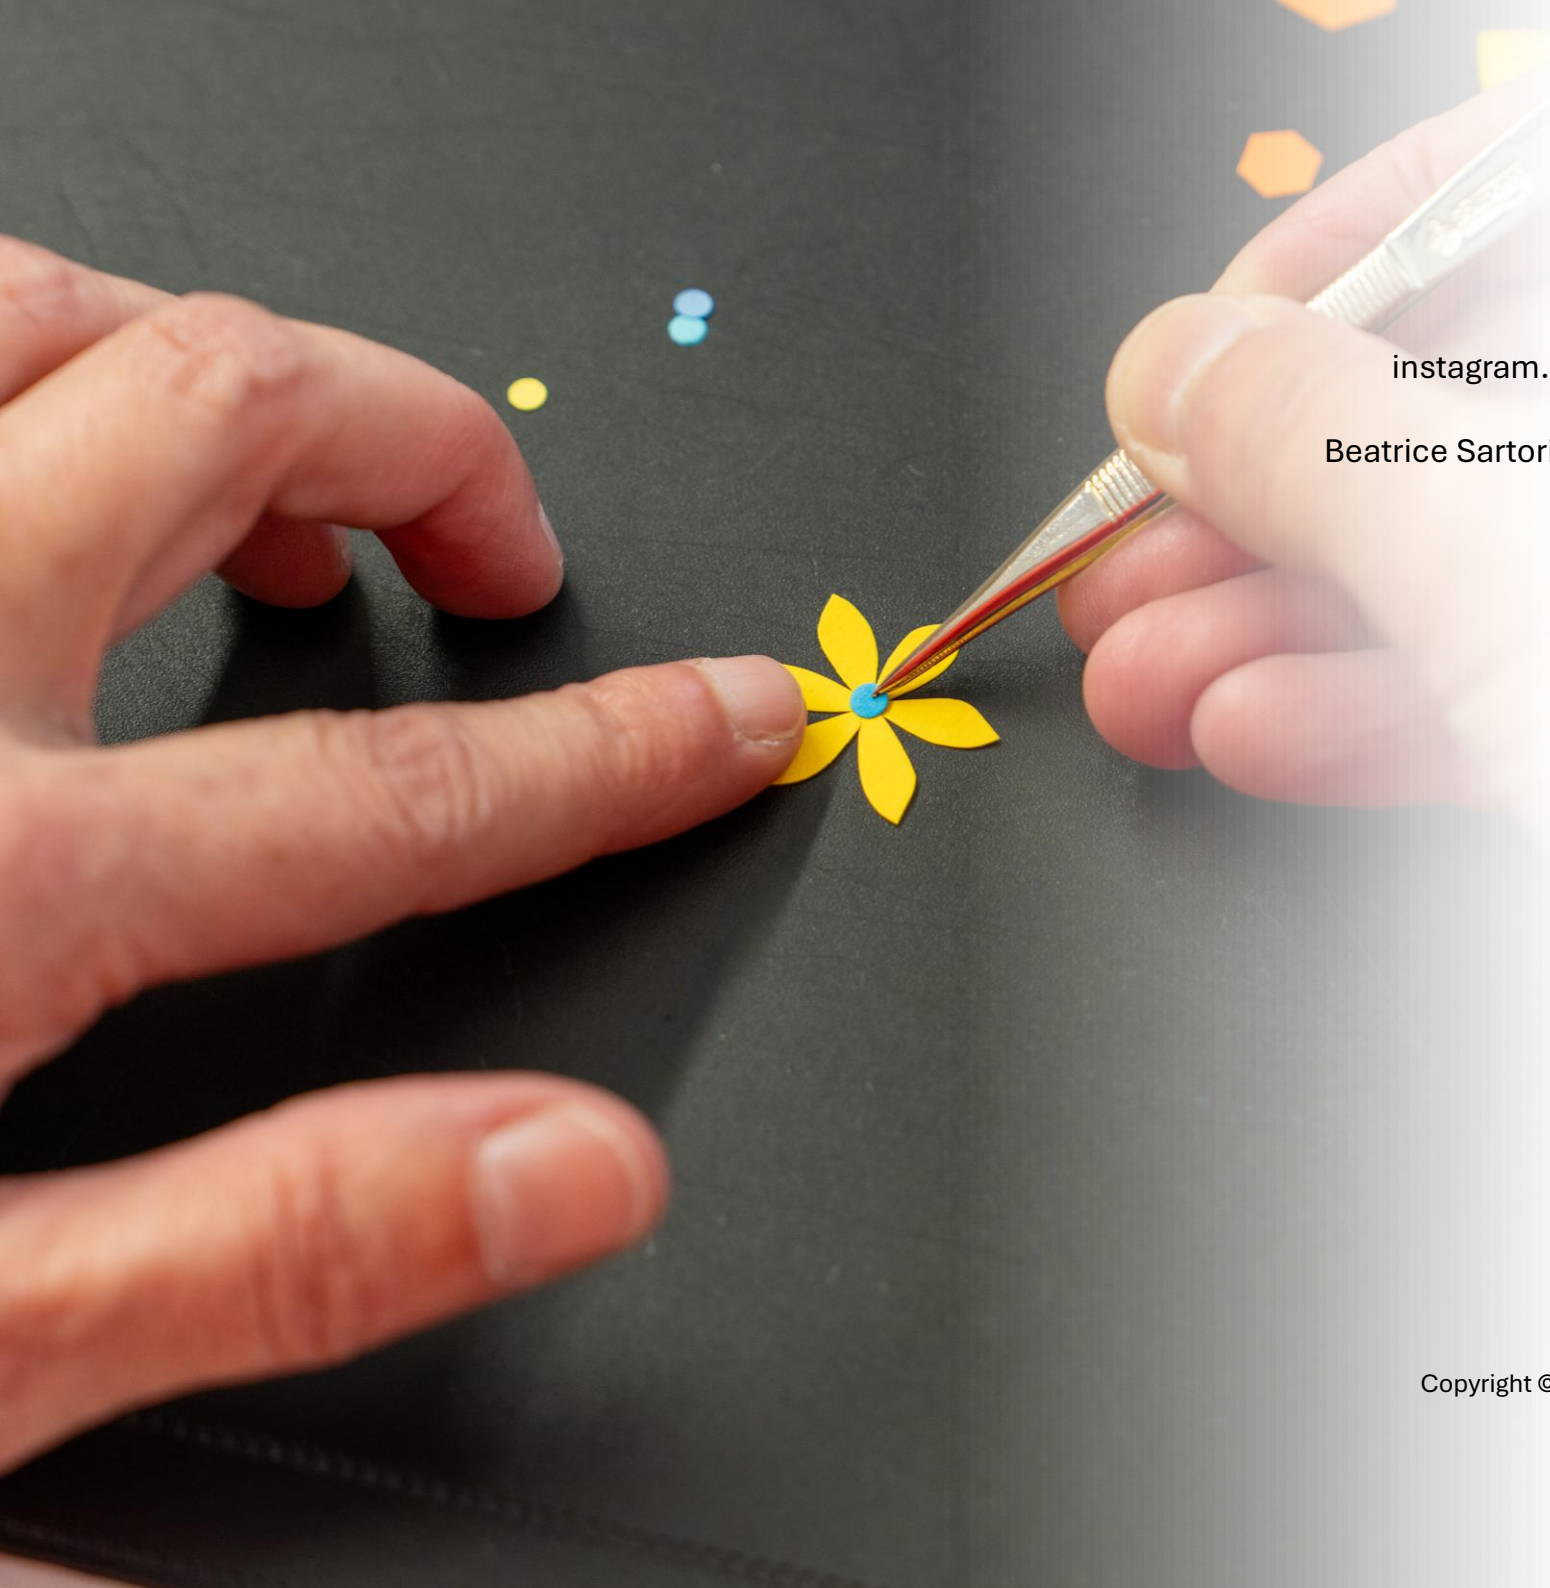

LUNA & MAYA, LA TENDRESSE

Paper-cut collage | 50x70 cm | 2024

Within their gaze lies an entire world,
where one feels understood,
where silence speaks.

A tenderness born of sharing:
laughter,
moments,
and tears.
